

Capstone Project – The Battle of Neighborhood

A description of problem, background and data

This document attempts to define problem description, background and data used to solve the problem.

1. <u>Introduction and Problem Statement</u>

1.1. Background -

Humans were nomadic by nature. With the rise of civilization, about 10,000 years ago, most people became pretty domestic. Living in or around the first cities and in villages and such which sustained agriculture. Slowly technological advancement and development has helped engineering society for comfort and convenience. Today we move to settle from one place to another majorly because our wants and needs change over time. The problem is how do we know that our next destination is better or it would not be a worse place?

To mitigate the risk related to shift, it is important to research major aspects which directly influence any society. Safety of the place is one such key parameter. If we don't feel safe in society and home where we live, we cannot sustain there for long.

1.2. Problem Statement -

This project aims to select the safest borough in London based on the total crimes, explore the neighbourhoods of that borough to find the 10 most common venues in each neighbourhood and finally cluster the neighbourhoods using k-mean clustering.

The crime statistics dataset of London found on Kaggle has crimes in each Boroughs of London from 2008 to 2016. The year 2016 being the latest we will be considering the data of that year which is actually old information as of now. The crime rates in each borough may have changed over time.

1.3. Target Audience –

Expats who are considering relocating to London will be interested to identify the safest borough in London and explore its neighbourhoods and common venues around each neighbourhood.

2. Data Acquisition and Cleaning

2.1. Data Acquisition

The data acquired for this project is a combination of data from three sources. The first data source of the project uses a London crime data that shows the crime per borough in London. The dataset contains the following columns:

- Isoa_code: code for Lower Super Output Area in Greater London.
- **borough**: Common name for London borough.
- major category: High level categorization of crime
- minor_category: Low level categorization of crime within major category.
- value: monthly reported count of categorical crime in given borough
- year: Year of reported counts, 2008-2016
- month: Month of reported counts, 1-12

The second source of data is scraped from a wikipedia page that contains the list of London boroughs. This page contains additional information about the boroughs, the following are the columns:

- Borough: The names of the 33 London boroughs.
- Inner: Categorizing the borough as an Inner London borough or an Outer London Borough.
- **Status**: Categorizing the borough as Royal, City or other borough.

- Local authority: The local authority assigned to the borough.
- **Political control**: The political party that control the borough.
- Headquarters: Headquarters of the Boroughs.
- Area (sq mi): Area of the borough in square miles.
- **Population (2013 est)[1]**: The population in the borough recorded during the year 2013.
- **Co-ordinates**: The latitude and longitude of the boroughs.
- Nr. in map: The number assigned to each borough to represent visually on a map.

The third data source is the list of Neighbourhoods in the Royal Borough of Kingston upon Thames as found on a Wikipedia page. This dataset is created from scratch using the list of neighbourhood available on the site, the following are columns:

- **Neighbourhood**: Name of the neighbourhood in the Borough.
- Borough: Name of the Borough.
- Latitude: Latitude of the Borough.
- Longitude: Longitude of the Borough.

2.2. Data Cleaning -

The data preparation for each of the three sources of data is done separately. From the London crime data, the crimes during the most recent year (2016) are only selected. The major categories of crime are pivoted to get the total crimes per borough as per the category (fig 2.1).

	Borough	Burglary	Criminal Damage	Drugs	Other Notifiable Offences	Robbery	Theft and Handling	Violence Against the Person	Total
0	Barking and Dagenham	1287	1949	919	378	534	5607	6067	16741
1	Barnet	3402	2183	906	499	464	9731	7499	24684
2	Bexley	1123	1673	646	294	209	4392	4503	12840
3	Brent	2631	2280	2096	536	919	9026	9205	26693
4	Bromley	2214	2202	728	417	369	7584	6650	20164

Fig 2.1 London crime data after preprocessing

The second data is scraped from a Wikipedia page using the Beautiful Soup library in python. Using this library we can extract the data in the tabular format as shown in the website. After the web scraping, string manipulation is required to get the names of the boroughs in the correct form (fig 2.2). This is important because we will be merging the two datasets together using the Borough names.

	Borough	Inner	Status	Local authority	Political control	Headquarters	Area (sq mi)	Population (2013 est)[1]	Co-ordinates	Nr. in map
0	Barking and Dagenham	NaN	NaN	Barking and Dagenham London Borough Council	Labour	Town Hall, 1 Town Square	13.93	194352	51°33'39"N 0°09'21"E / 51.5607"N 0.1557"E /	25
1	Barnet	NaN	NaN	Barnet London Borough Council	Conservative	North London Business Park, Oakleigh Road South	33.49	369088	51°37'31"N 0°09'06"W / 51.6252"N 0.1517"W /	31
2	Bexley	NaN	NaN	Bedey London Borough Council	Conservative	Civic Offices, 2 Watting Street	23.38	236687	51°27'18"N 0°09'02"E / 51.4549"N 0.1505"E /	23
3	Brent	NaN	NaN	Brent London Borough Council	Labour	Brent Civic Centre, Engineers Way	16.70	317264	51°33'32"N 0°16'54"W / 51.5588°N 0.2817°W /	12
4	Bromley	NaN	NaN	Bromley London Borough Council	Conservative	Civic Centre, Stockwell Close	57.97	317899	51°24'14"N 0°01'11"E / 51.4039°N 0.0198°E /	20

Fig 2.2 List of London Boroughs

The two datasets are merged on the Borough names to form a new dataset that combines the necessary information in one dataset (fig 2.3). The purpose of this dataset is to visualize the crime rates in each borough and identify the borough with the least crimes recorded during the year 2016.

	Borough	Local authority	Political control	Headquarters	Area (sq mi)	Population (2013 ext)[1]	Co- ordinates	Burglary	Criminal Damage	Drugs	Other Notifiable Offences	Robbery	Thett and Handling	Violence Against the Person	Total
0	Barking and Degenhern	Barking and Dagenham London Borough Council	Labour	Town Hall, 1 Town Square	13.93	194352	51"33"39"N 0"09"21"E / 51.5607"N 0.1557"E /	1287	1949	919	378	534	5607	6067	16741
1	Barnet	Barnet London Borough Council	Conservative	North London Business Park, Caldeigh Road South	33.49	369088	51°37'31'N 0°09'08"W 51.6252'N 0.1517'W	3402	2183	906	499	464	9731	7499	24684

э	Brent	Brent London Borough Gouncil	Labour	Brent Civio Centre, Engineers Way	16.70	317264	51°33°32°N 0°16′54°W 51,5586°N 0,2817°W	2631	2280	2096	536	919	9026	9205	26693
•	Bromley	Bromley London Borough Council	Conservative	Civic Centre, Stockwell Close	57.97	317899	51°24°14°N 0°01°11°E/ 51.4039°N 0.0198°E	2214	2202	728	417	369	7584	6650	20164

Fig 2.3 London Borough Crime

After visualizing the crime in each borough we can find the borough with the lowest crime rate and hence tag that borough as the safest borough. The third source of data is acquired from the list of neighbourhoods in the safest borough on Wikipedia. This dataset is created from scratch, the pandas data frame is created with the names of the neighbourhoods and the name of the borough with the latitude and longitude are left blank (Fig 2.4).

	Neighborhood	Borough	Latitude	Longitude
0	Berrylands	Kingston upon Thames		
1	Canbury	Kingston upon Thames		
2	Chessington	Kingston upon Thames		
3	Coombe	Kingston upon Thames		
4	Hook	Kingston upon Thames		

Fig 2.4 Neighborhoods of the safest borough

The coordinates of the neighbourhoods is be obtained using Google Maps API geocoding to get the final dataset (Fig 2.5).

	Neighborhood	Borough	Latitude	Longitude
0	Berrylands	Kingston upon Thames	51.393781	-0.284802
1	Canbury	Kingston upon Thames	51.417499	-0.305553
2	Chessington	Kingston upon Thames	51.358336	-0.298622
3	Coombe	Kingston upon Thames	51.419450	-0.265398
4	Hook	Kingston upon Thames	51.367898	-0.307145

Fig 2.5 Neighborhoods of the safest borough

The new dataset is used to generate the venues for each neighbourhood using the Foursquare API.

3. Methodology -

3.1. Exploratory Data Analysis

3.1.1. Crime Summary -

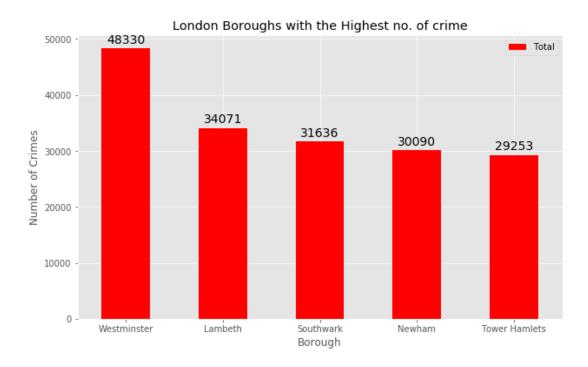

The describe function in python is used to get statistics of the London crime data, this returns the mean, standard deviation, minimum, maximum, 1st quartile (25%), 2nd quartile (50%), and the 3rd quartile (75%) for each of the major categories of crime.

	Burglary	Criminal Damage	Drugs	Other Notifiable Offences	Robbery	Theft and Handling	Violence Against the Person	Total
count	33.000000	33.000000	33.000000	33.000000	33.000000	33.000000	33.000000	33.000000
mean	2069.242424	<u>1941.545455</u>	<u>1179.212121</u>	479.060606	682.666667	8913.121212	7041.848485	22306.696970
std	737.448644	625.207070	586.406416	223.298698	441.425366	4620.565054	<u>2513.601551</u>	8828.228749
min	2.000000	2.000000	10.000000	6.000000	4.000000	129.000000	25.000000	178.000000
25%	<u>1531.000000</u>	1650.000000	743.000000	378.000000	377.000000	<u>5919.000000</u>	5936.000000	16903.000000
50%	2071.000000	1989.000000	1063.000000	490.000000	599.000000	8925.000000	7409.000000	22730.000000
75%	2631.000000	2351.000000	<u>1617.000000</u>	551.000000	936.000000	10789.000000	8832.000000	27174.000000
max	3402.000000	3219.000000	2738.000000	1305.000000	1822.000000	27520.000000	10834.000000	48330.000000

The count for each of the major categories of crime returns the value 33 which is the number of London boroughs. 'Theft and Handling' is the highest reported crime during the year 2016 followed by 'Violence against the person', 'Criminal damage'. The lowest recorded crimes are 'Drugs', 'Robbery' and 'Other Notifiable offenses'.

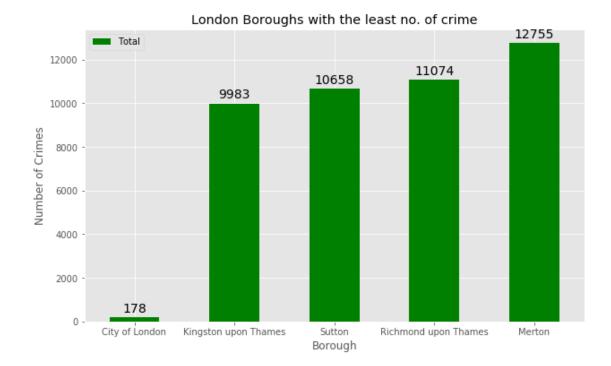

3.1.2. Borough with high crime rates

Comparing five boroughs with the highest crime rate during the year 2016 it is evident that Westminster has the highest crimes recorded followed by Lambeth, Southwark, Newham and Tower Hamlets. Westminster has a significantly higher crime rate than the other 4 boroughs

3.1.3. Borough with lowest crime rates

Comparing five boroughs with the lowest crime rate during the year 2016, City of London has the lowest recorded crimes followed by Kingston upon Thames, Sutton, Richmond upon Thames and Merto

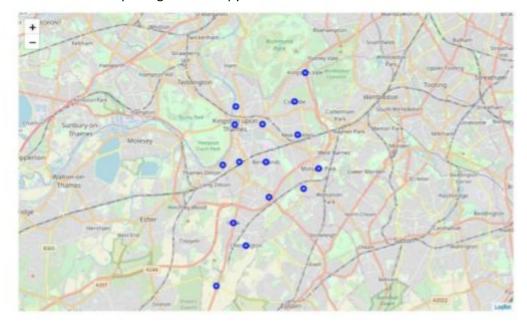

City of London has a significantly lower crime rate because it i is the 33rd principal division of Greater London but it is not a London borough. It has an area of 1.12 square miles and a population of 7000 as of 2013 which suggests that it is a small area (see fig 3.1.3.1). Hence we will consider the next borough with the lowest crime rate as the safest borough in London which is Kingston upon Thames.

	Borough	Total	Area (sq mi)	Population (2013 est)[1]
6	City of London	178	1.12	7000

3.1.4. Neighbourhood in Kingston upon Thames

There are 15 neighborhoods in the royal borough of Kingston upon Thames, they are visualised on a map using folium on python –

3.2. Modelling

Using the final dataset containing the neighbourhoods in Kingston upon Thames along with the latitude and longitude, we can find all the venues within a 500 meter radius of each neighbourhood by connecting to the Foursquare API. This returns a json file containing all the venues in each neighbourhood which is converted to a pandas dataframe. This data frame contains all the venues along with their coordinates and category

	Neighborhood	Neighborhood Latitude	Neighborhood Longitude	Venue	Venue Latitude	Venue Longitude	Venue Category
0	Berrylands	51.393781	-0.284802	Surbiton Racket & Fitness Club	51.392676	-0.290224	Gym / Fitness Center
1	Berrylands	51.393781	-0.284802	Alexandra Park	51.394230	-0.281206	Park
2	Berrylands	51.393781	-0.284802	K2 Bus Stop	51.392302	-0.281534	Bus Stop
3	Canbury	51.417499	-0.305553	Canbury Gardens	51.417409	-0.305300	Park
4	Canbury	51.417499	-0.305553	The Boater's Inn	51.418546	-0.305915	Pub

One hot encoding is done on the venues data. (One hot encoding is a process by which categorical variables are converted into a form that could be provided to ML algorithms to do a better job in prediction). The Venues data is then grouped by the Neighbourhood and the mean of the venues are calculated, finally the 10 common venues are calculated for each of the neighbourhoods.

To help people find similar neighbourhoods in the safest borough we will be clustering similar neighbourhoods using K - means clustering which is a form of unsupervised machine learning algorithm that clusters data based on predefined cluster size. We will use a cluster size of 5 for this project that will cluster the 15 neighbourhoods into 5 clusters. The reason to conduct a K-means clustering is to cluster neighbourhoods with similar venues together so that people can shortlist the area of their interests based on the venues/amenities around each neighbourhood.

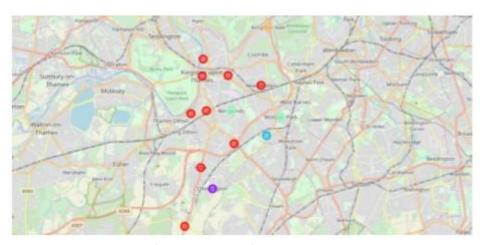

4. Results -

After running the K-means clustering we can access each cluster created to see which neighbourhoods were assigned to each of the five clusters. Looking into the neighbourhoods in the first cluster

	Neighborhood	Borough	Latitude	Longitude	Cluster Labels	1st Most Common Venue	2nd Most Common Venue	3rd Most Common Venue	4th Most Common Venue	5th Most Common Venue	6th Most Common Venue	7th Most Common Venue	8th Most Common Venue	9th Mos Commo Venu
0	Berrylands	Kingston upon Thames	51.393781	-0.284802	0.0	Bus Stop	Gym / Fitness Center	Park	Wine Shop	Discount Store	Dry Cleaner	Electronics Store	Farmers Market	Fast Foo Restaurar
1	Canbury	Kingston upon Thames	51.417499	-0.305553	2.0	Pub	Park	Fish & Chips Shop	Supermarket	Spa	Shop & Service	Gym / Fitness Center	Plaza	India Restaurai
2	Chessington	Kingston upon Thames	51.358336	-0.298622	NaN	NaN	NaN	NaN	NaN	NaN	NaN	NaN	NaN	Na
3	Coombe	Kingston upon Thames	51.419450	-0.265398	NaN	NaN	NaN	NaN	NaN	NaN	NaN	NaN	NaN	Na
4	Hook	Kingston upon Thames	51.367898	-0.307145	2.0	Indian Restaurant	Bakery	Supermarket	Fish & Chips Shop	Food	Discount Store	Dry Cleaner	Electronics Store	Farmei Marke

The cluster one is the biggest cluster with 9 of the 15 neighbourhoods in the borough Kingston upon Thames. Upon closely examining these neighbourhoods we can see that the most common venues in these neighbourhoods are Restaurants, Pubs, Cafe, Supermarkets, and stores. Looking into the neighbourhoods in the second, third and fifth clusters, we can see these clusters have only one neighbourhood in each. This is because of the unique venues in each of the neighbourhoods, hence they couldn't be clustered into similar neighbourhoods.

Visualising the clustered neighbourhoods on a map using the folium library –

Each cluster is colour coded for the ease of presentation, we can see that majority of the neighbourhood falls in the red cluster which is the first cluster. Three neighbourhoods have their own cluster (Blue, Purple and Yellow), these are clusters two three and five. The green cluster consists of two neighbourhoods which is the 4th cluster.

5. Discussion -

The objective of this project is to help people who want to relocate to the safest borough in London, expats can chose the neighbourhoods to which they want to relocate based on the most common venues in it. For example if a person is looking for a neighbourhood with good connectivity and public transportation we can see that Clusters 1st and 5th has Train stations and Bus stops as the most common venues. –

Nei	ghborhood	Boroug	h Lati	itude Lon	gitude	Cluster Labels	Comi	non Con	2nd Most nmon Venue	3rd Most Common Venue	Commo	n Commo	n Commo	n Comm	on Comm	non Comm	ost Mo	
	Berrylands	Kingsto upo Thame	n 51.39	3781 -0.2	284802	0	Bus \$	Stop F	Gym / itness Center	Park	Wine Shop				nics Farm ore Mai		ant UII	h & nips hop
<																		>
	Neighbor	hood B	orough	Latitude	Longit		luster abels	1st Most Common Venue	Co		3rd Most Common Venue	4th Most Common Venue	5th Most Common Venue	6th Most Common Venue	7th Most Common Venue	8th Most Common Venue	9th Most Common Venue	
1	1 Old M	alden	(ingston upon Thames	51.382484	-0.25	5909	4	Grocery Store		truction & scaping	Food	Train Station	Bar	Discount Store	Gift Shop	German Restaurant	Gastropub	
<																		>

If a person is looking for a neighbourhood with stores and restaurants in a close proximity then the neighbourhoods in the 2nd and 3rd cluster is suitable.

	Neighborhood	Borough	Latitude	Longitude	Cluster Labels	1st Most Common Venue	2nd Most Common Venue	3rd Most Common Venue	4th Most Common Venue	5th Most Common Venue	6th Most Common Venue	7th Most Common Venue	8th Most Common Venue
1	Canbury	Kingston upon Thames	51.417499	-0.305553	2	Pub	Park	Fish & Chips Shop	Supermarket	Spa	Shop & Service	Gym / Fitness Center	Plaza
4	Hook	Kingston upon Thames	51.367898	-0.307145	2	Indian Restaurant	Bakery	Supermarket	Fish & Chips Shop	Food	Discount Store	Dry Cleaner	Electronics Store
5	Kingston upon Thames	Kingston upon Thames	51.409627	-0.306262	2	Coffee Shop	Café	Burger Joint	Sushi Restaurant	Pub	Asian Restaurant	Cosmetics Shop	Electronics Store
7	Malden Rushett	Kingston upon Thames	51.341052	-0.319076	2	Convenience Store	Garden Center	Pub	Restaurant	Farmers Market	Deli / Bodega	Department Store	Discount Store
9	New Malden	Kingston upon Thames	51.405335	-0.263407	2	Gastropub	Indian Restaurant	Bar	Sushi Restaurant	Supermarket	Gym	Korean Restaurant	Chinese Restaurant
10	Norbiton	Kingston upon Thames	51.409999	-0.287396	2	Indian Restaurant	Food	Italian Restaurant	Pub	Wine Shop	Platform	Athletics & Sports	Breakfast Spot
12	Seething Wells	Kingston upon Thames	51.392642	-0.314366	2	Indian Restaurant	Café	Coffee Shop	Pub	Fast Food Restaurant	Italian Restaurant	Chinese Restaurant	Restaurant
13	Surbiton	Kingston upon Thames	51.393756	-0.303310	2	Coffee Shop	Pub	Grocery Store	Gastropub	Train Station	Farmers Market	Gym / Fitness Center	Hotel
14	Tolworth	Kingston upon Thames	51.378876	-0.282860	2	Grocery Store	Pharmacy	Sandwich Place	Furniture / Home Store	Train Station	Hotel	Discount Store	Coffee Shop

For a family I feel that the neighbourhoods in Cluster 4 are more suitable dues to the common venues in that cluster, these neighbourhoods have common venues such as Parks, Gym/Fitness centres, Bus Stops, Restaurants, Electronics Stores and Soccer fields which is ideal for a family.

	Neighborhood	Borough	Latitude	Longitude	Cluster Labels	1st Most Common Venue	2nd Most Common Venue	3rd Most Common Venue	4th Most Common Venue	5th Most Common Venue	6th Most Common Venue	7th Most Common Venue	8th Most Common Venue	9th Most Common Venue	
8	Motspur Park	Kingston upon Thames	51.390985	-0.248898	3	Gym	Construction & Landscaping	Park	Soccer Field	Wine Shop	Fast Food Restaurant	Discount Store	Dry Cleaner	Electronics Store	F
															>

6. Conclusion -

This Analysis helps a person get a better understanding of the neighbourhoods with respect to the most common venues in that neighbourhood. It is always helpful to make use of technology to stay one step ahead i.e. finding out more about places before moving into a neighbourhood. We have just taken safety as a primary concern to shortlist the borough of London. There can be a list of other parameters e.g. Cost, Pollution index and others.
